The Society

The Singapore Institute of Statistics (SIS) has been registered as a professional association in Singapore since 1975.

Objectives

The objectives of the Institute are:

- to promote the advancement of statistics and its applications.
- to encourage the improvement of education in statistics and the training of those interested in statistics.
- to advance the character and status of the profession of statistics and its applications and the interests of those engaged therein.
- to facilitate the exchange of information about statistics and its applications through meetings, exhibitions, publications and other ways.
- to publicize and disseminate information about statistics and its application and on matters concerning the profession.
- to represent the opinion of the members of the Institute on matters related to the objects of the Institute.
- to secure and distribute grants and loans for education and research in statistics and its applications.

Membership

(A) Membership categories:

Member:
